

## SoundRoom UI

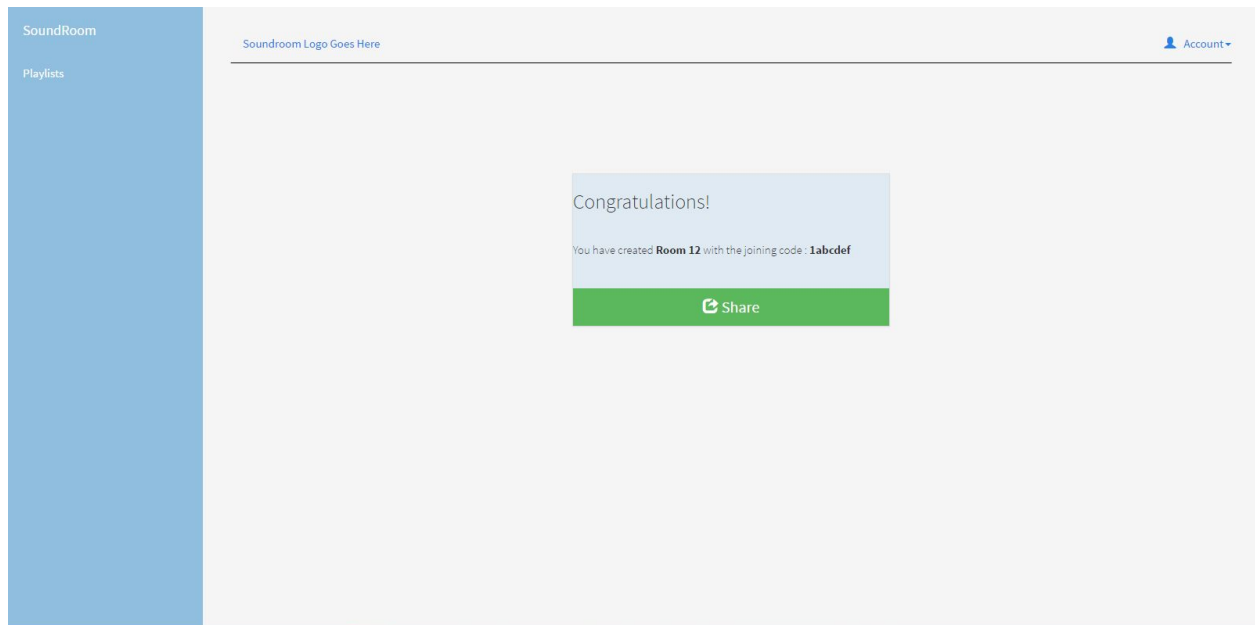

### Home Page

This is the home page that appears once the user is logged in. After the user is logged in they will be able to create a room by pressing on the “Create Room” button. They can join a pre-existing room by clicking the “Join Room” button. On the left side bar, the existing playlists will be listed. The Home Page was built by Aarsh.

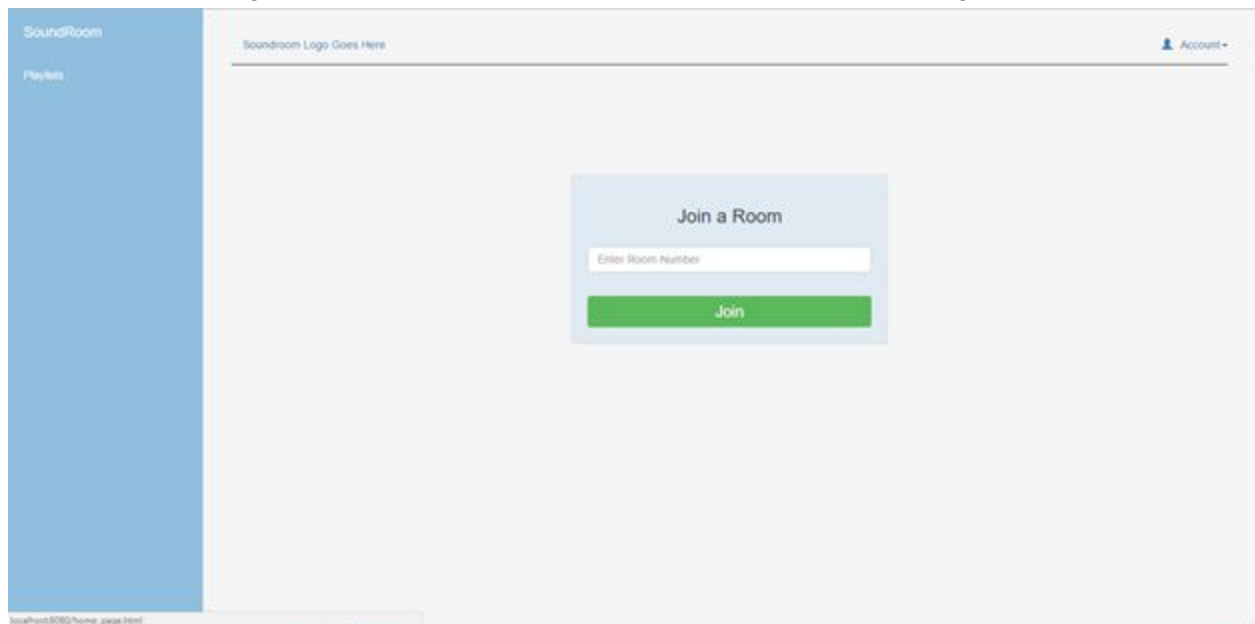

## Create Room

The purpose of the Create Room Page is to create a room and generate a code that will allow other users to join the same room and contribute to the playlist. The Create Room Page was built by Ronit.

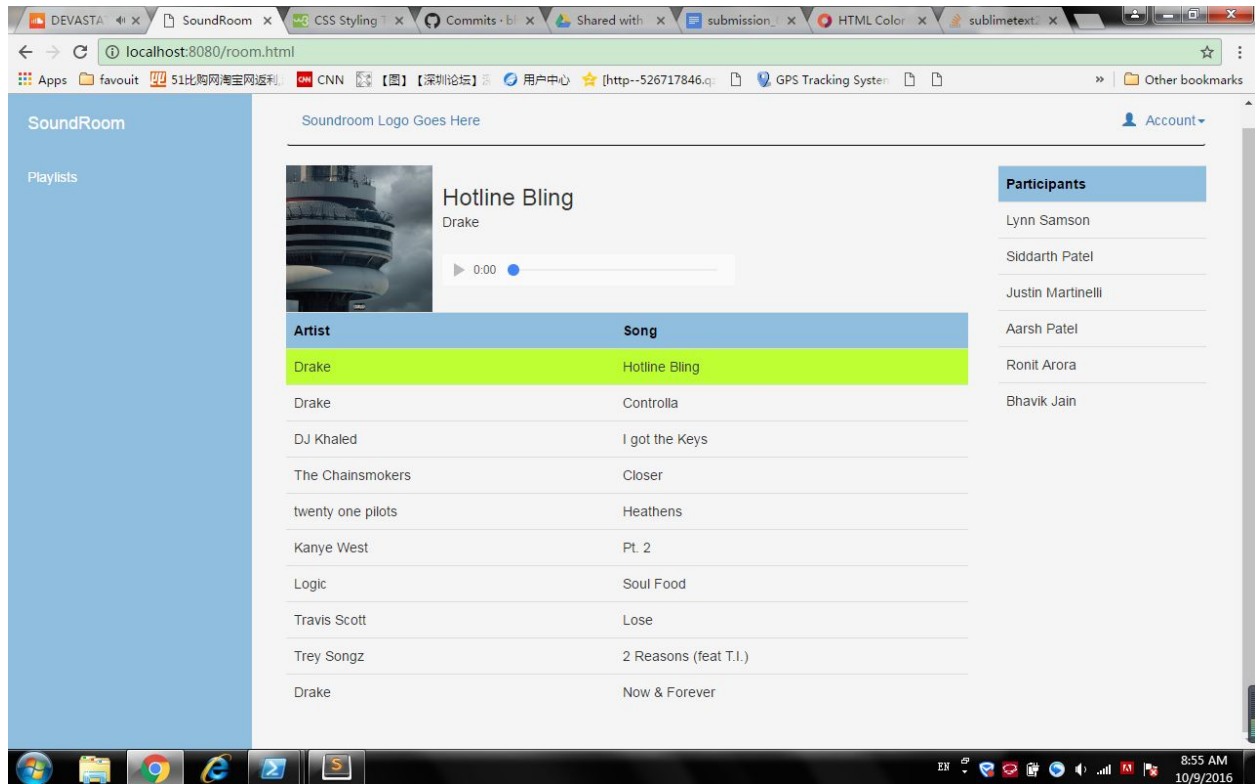

## Join Room Page

The purpose of the join a room page is to join a pre-existing room by putting the code for the room in and clicking the "Join" button. Siddarth created the Join Room Page.

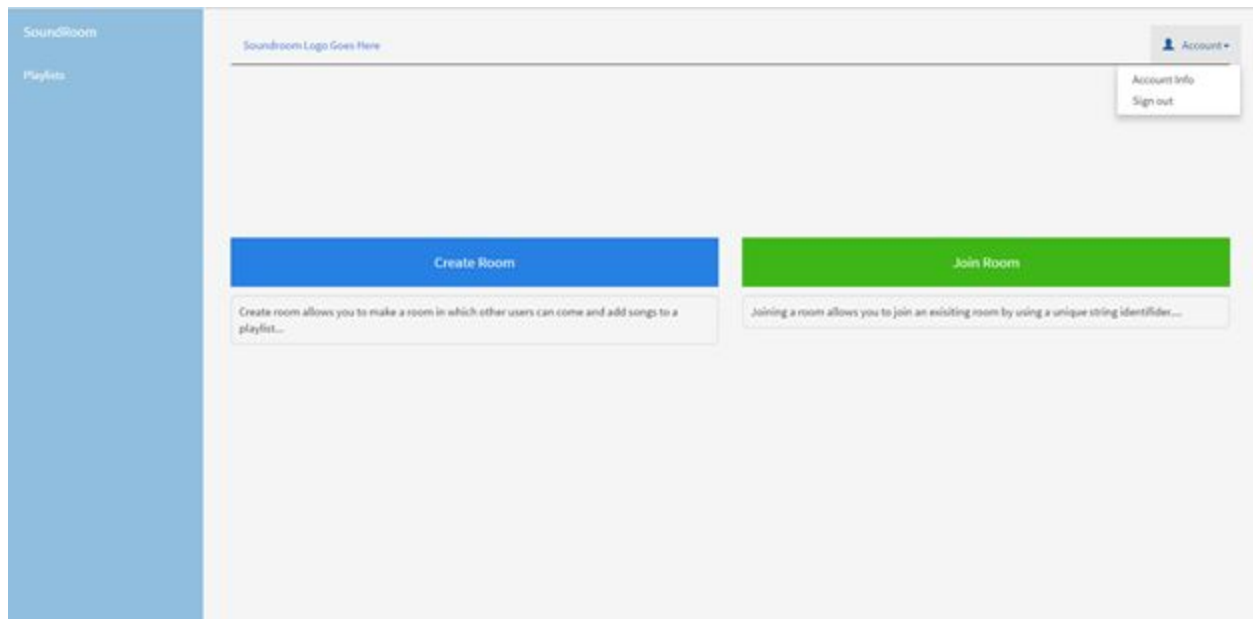

## Room Page

Once in a room, the list of songs already in the playlist will be displayed and there will be buttons to add songs to the playlist and to upvote them. The participants in the room will be displayed on the right hand panel underneath the Participants headline. Lynn built the Room Page.

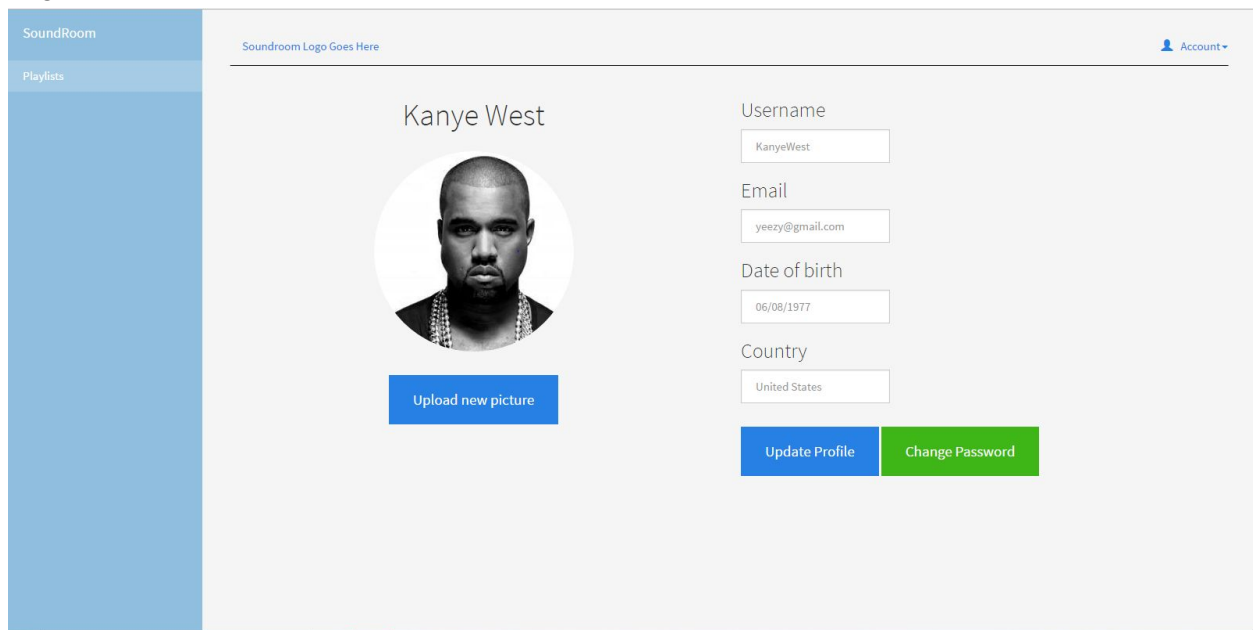

This is the transition from the home page to the Account Information Page. There is a drop down menu on the top right corner that links to the Account Information Page

## Account Information Page

The purpose of the Account Information Page is to be able to update the account information, change the password, and change the account picture. Justin created the Account Information Page.

## Playlist Page

This is how the playlists will be displayed after clicking on one of the pre-existing playlists on the left sidebar. The playlist page will be for having the list of songs and there will be buttons to add songs to the playlist and upvoting them. Bhavik built the Playlist Page.
